

## You want to configure your mobile phone for Internet or MMS? It's easy, follow our instructions!

### To begin with:

- On your Home screen, select **Settings**
- Then select **Mobile Data**
- Select **Mobile Data Options**
- Select **Mobile Data Network**

For Internet: under **Mobile Data**, click on **APN** and fill in with **join**  
For LTE and Hotspot: under **Personal hotspot**, click on **APN** and fill in with **join**

For MMS: under **Mobile Data**, click on **MMS** and fill in the inputs as follow:  
**MMSC** : **http://joinmms**  
**Proxy MMS** : **10.1.17.100:8080**

Click on the main button to validate. Enjoy!
